

Michael L. Glead, Cache County Recorder

- ☆ Lifetime Cache County Resident
- ☆ USU Graduate
- ☆ Live in Smithfield where my wife & I have raised our family
- ☆ We have six children and nine grandchildren
- ☆ 40 years public service in land records for Cache County
- ☆ 32 years as Cache County Recorder

I am dedicated to maintaining accurate and secure public records of land ownership and history of title to real property.

Goals:

1. To develop an in-house web site to provide access to county parcel records and deed records for public and professional researchers.
2. I plan to coordinate the rewrite of the software system of land recordings, indexing, property ownership and tax roll data.
3. I want to continue scanning older records to create electronic images of documents on file, making historical records more accessible.
4. I will continue to keep ownership plats up to date with current owners, legal descriptions and property boundaries.

My staff and I have an excellent working relationship with title companies, Realtors, surveyors, appraisers, attorneys, and local government leaders. We are happy to serve all those that come into our office each day.
